

INTRODUCING

The First 3D PFP NFT Collection on Eclipse

10K EG (Eclipse Gang) PFP NFTs

10K EG NFTs are unique, hand-drawn, and randomly generated artworks featuring a mix of ~200 different traits from 10 animals (Penguin, Rabbit, Bull, Bear, Shark, Turtle, Fox, Tiger, Dodo, Wolf). These delightful creatures will be minted on the Eclipse Blockchain, establishing the first 3D pfp NFT Collection. All EG NFTs are exceptional, with some being rarer than others. Go figure! We are community-focused, offering exclusive holder benefits.

If there is an \$ED Token, then a percentage of it will be airdropped to each EG holder.
